

Pre-Signed BAA Instructions

This standard, pre-signed BAA is for use when a supplier is prepared to sign it as is with no changes to the terms and conditions.

In the event a supplier wants to redline, cross out or otherwise make modifications to our standard BAA language, then **this BAA can NOT be utilized.**

Any such actions will render the BAA null and void. A BAA that has any kind of changes requested by a supplier will have to go through a review process with UEC until the terms are agreeable to both parties. Do not use this pre-signed BAA in that circumstance.

Unsigned BAA instructions

This standard BAA is for use when a supplier requires changes to the terms and conditions. This BAA will need to go through a review process with UEC until the terms are agreeable to both parties. Do not sign in advance. Signature can only take place when the negotiations have been completed.
